

**“Integrated Renovation Programmes and One-stop Shops: The INNOVATE Partners’ experience”**  
20<sup>th</sup> of May 2020  
(15:00-16:15)  
Via GoToMeeting

Integrated into the second EuroACE Series of Online Workshops entitled “Renovation Wave in Action: Sharing Experiences”, this webinar will focus on one-stop shops for energy renovation and on the experience of the EU-Funded, INNOVATE Project. From the INNOVATE partners, the French partner, Énergies Demain, will share its experience and expertise on the subject. INNOVATE is a 3-year EU-funded project with the objective to upgrade, develop and roll-out integrated energy efficiency service packages in 11 targeted territories, known as one-stop shops. Through this webinar, policymakers, the INNOVATE partners and EuroACE (the European Alliance of Companies for Energy Efficiency in Buildings) will share their **policy recommendations** to boost the roll-out of one-stop shops across the EU and provide ideas on how the upcoming Renovation Wave Initiative can be leveraged to dramatically scale-up their deployment.

**The organisers:**

**About EuroACE**

EuroACE represents Europe's leading companies involved with the manufacture, distribution and installation of energy saving goods and services for buildings. EuroACE members employ around 200,000 people in these activities in Europe and have around 900 production facilities and office locations. The mission of EuroACE is to work together with the EU institutions to help Europe move towards a more efficient use of energy in buildings, thereby contributing to Europe's commitments on climate change, energy security and economic growth.

**About Energy Cities**

Energy Cities is a network of 1,000 local governments in 30 countries. We believe that the energy transition is about more than renewable energy or great technologies: It is about a wise use of resources while strengthening local participation and well-being in a democratic Europe.
